Proceedings of the 5th Annual Conference
JAPAN SOCIETY OF INFORMATION AND KNOWLEDGE

CONTENTS

Special Lecture
Changing Context of Information Production and Dissemination at the Internet Environment  
K Hosono  1

Technologies for Distribution and Utilization of Digital Contents
Development of an Electronic Textbook for Internal Medicine  
K Miyo, K Ohe and M Kajino  11
A Review of the Push Technology for the Internet and its Problems  
S Hirata  15

Research for the Standardization of the Governmental Information  
S Ikeda  19

SGML as a Tool for Parallel Publishing of Printed and Fulltext Databases of an Academic Journal -- A Case of “JOHO KANRI”  
U Morita, M Suzuki and Y Chiba  25

Structural Analysis on Information and Knowledge
Genetic Algorithm Approach to Piping Route Path Planning  
T Ito  29

Development of Gene Order Database for Plastid Genomes and Inference of Genome Evolution  
T Konisawa and D Sankoff  33
Making an Attempt at Constructing a Database-data by Using the Original Work Copy of Pedigree  
M Aida  37
On the Negative Definition of Meaning of Word -- From the Standpoint of Ancient Indian Theory of Meaning (Apotha-theory)  
N Ueda  41

Sharing Information and Knowledge in a Networked Environment
Organizational Editorial Functions of Professional Technical Societies -- A Case Study on Fiber-Optic Transmission Technologies Development  
K Nosu  51
Application Development Project for Research Collaborations between Institutes Using Broadband Research Network  
T Atago and J Tateyama  59
Broadband Computer Networks for Post-genome Bioinformatics  
S Miyazaki and H Sugawara  63

An Application of Broadband Research Network Using Remote Experiment in Material Science  
M Fujita and T Yokokawa  67

Databases and Bibliometrics
Enlarging Subject Bibliography through Applying Citation Networks between Documents -- Based on the IBSS and the SSCI  
K Tezuka, S Matsui and K Kishida  71
The Need for Quality Filters in Biomedical Databases  
S Yamazaki  79

Cross-national Comparison of Publication Output in Engineering -- An Exploratory Study Based on Correspondence Analysis  
Y Sun and M Negishi  83

Information Visualization and Multimedia Applications
Driving Simulator for Driver Education -- Status and the Future  
M Mishina  89

Effectiveness of Visual Simulation and Several Considerations for its Practical Application  
Y Iwabuchi and K Koizumi  93
